Moodle provides a number of ways to display files, text, links, images and embedded audio & video.

▼ Resources

Topic summaries are useful for displaying short texts, links to web pages and documents, images and other media.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. In malesuada, felis ut suscipit dignissim, lorem urna tristique massa, viverra euismod est turpis nec massa. Nulla suscipit leo quis nulla pharetra, vel facilisis mauris ultricies. Vestibulum ac sollicitudin diam, a efficitur sem. Ut vel arcu sed augue congue placerat.

 Placement Rota - File Word 2007 document

Files uploaded to the course page will display the type.

 Learning Outcomes - Page

Pages are useful for longer pieces of text, links and media.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. In malesuada, felis ut suscipit dignissim, lorem urna tristique massa, viverra euismod est turpis nec massa.

All items can include a **description** for added context.

 Trauma Module - Book

Books are useful for organising pages in a table of contents.

 Lab Safety Documents - Folder

Folders are useful for downloading a collection of files.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. In malesuada, felis ut suscipit dignissim, lorem urna tristique massa, viverra euismod est turpis nec massa. Nulla suscipit leo quis nulla pharetra, vel facilisis mauris ultricies. Vestibulum ac sollicitudin diam, a efficitur sem. Ut vel arcu sed augue congue placerat. Donec semper auctor odio, sed l

Text and media areas can be placed anywhere on the course page.

 Tayside Area Formulary - URL

URLs can be displayed on the course page for links to web pages.
