Introduction to YuJa  
for Medical School teaching staff

# Introduction to YuJa - topics covered

A brief introduction on how you can use YuJa to create videos for teaching content.

- What is YuJa?
- Where do I log in?
- What equipment do I need?
- How do I put my recorded video on Moodle?
- YuJa resources (further help, guidance, examples)

# What is YuJa?

- YuJa is an application that lets you record and upload video content.
- Fully supported and recommend by the University of Dundee via TILT and CTIL teams.
- Once videos are uploaded to YuJa TILT can share them from a Moodle page ready for students to view.
- Videos are automatically captioned by Yuja

# What equipment do I need?

## Pre-recording

- A desktop computer or laptop, connected or built in camera and microphone. You may choose to have your camera on or just record your voice.
- Mobile phone or tablet device.
- An allocated recording room within the Medical school or a pre-loaded laptop (please contact [mbchb\\_year1-3@dundee.ac.uk](mailto:mbchb_year1-3@dundee.ac.uk) to book a room or laptop).

## Live recording

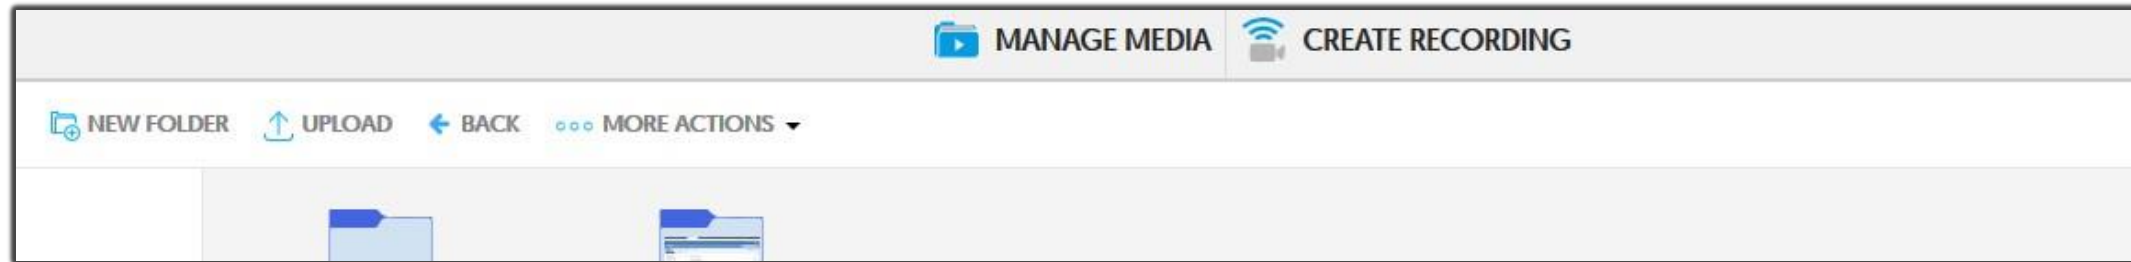

- Any teaching room with a microphone and camera. Currently these are
  - Gannochy, Wolfson and Tanis Drummond lecture theatres
  - Flexible, Versatile and Interactive teaching rooms
- An Owl camera can be requested for other teaching rooms by emailing [mbchb\\_year1-3@dundee.ac.uk](mailto:mbchb_year1-3@dundee.ac.uk)

# Where do I log in?

Please login to your account at <https://video.dundee.ac.uk> (UoD account is required)

To create a recording click on 'Create Recording', you will then be prompted to the next step.

Mobile App - Record videos with a phone or tablet.  
Download 'YuJa Mobile' from your app store.

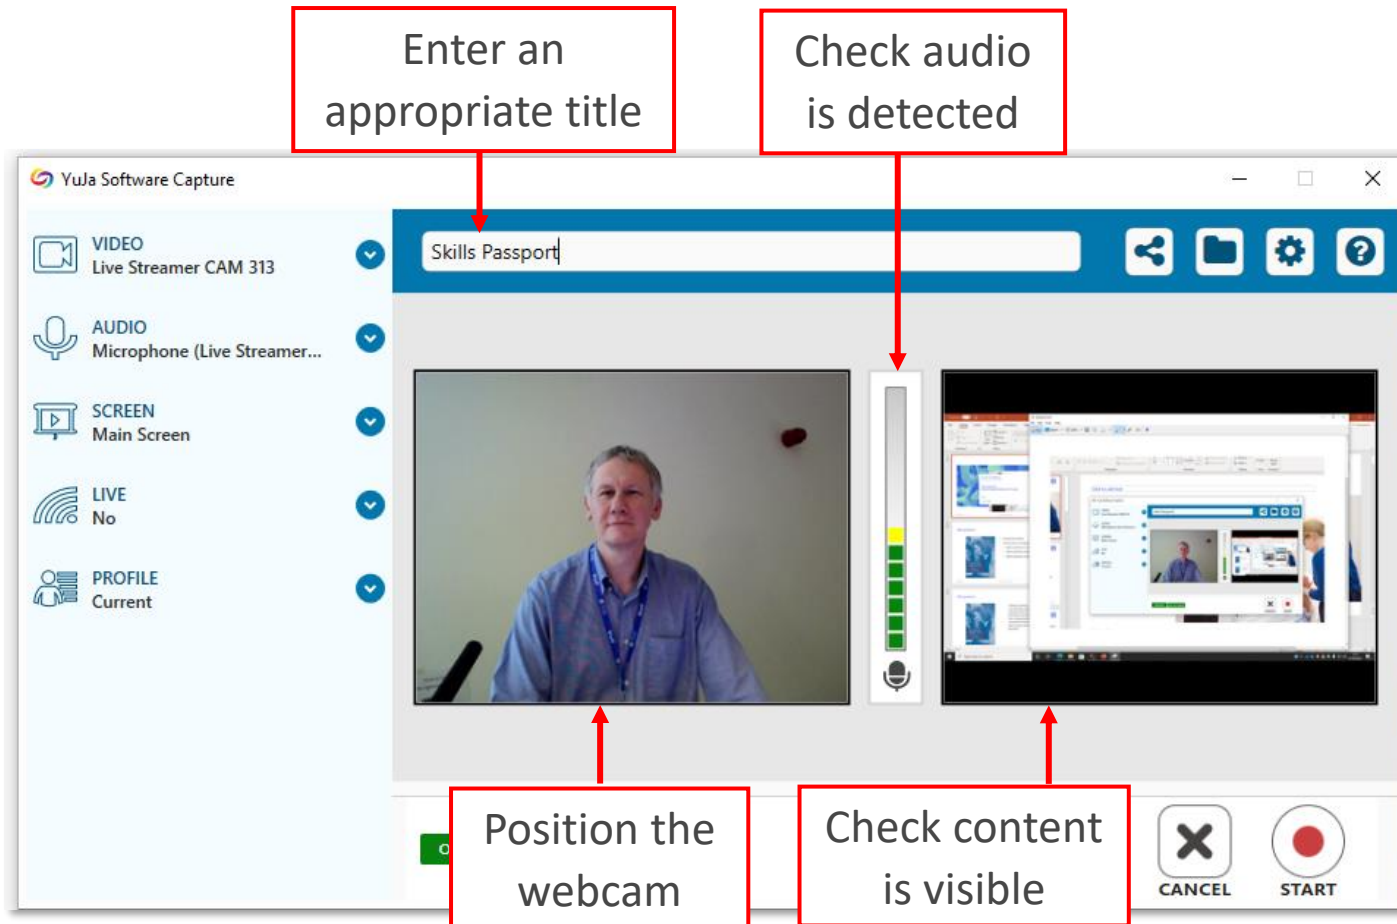

# How do I make a recording?

In the Preview screen.....

Click  and the recording toolbar appears.....

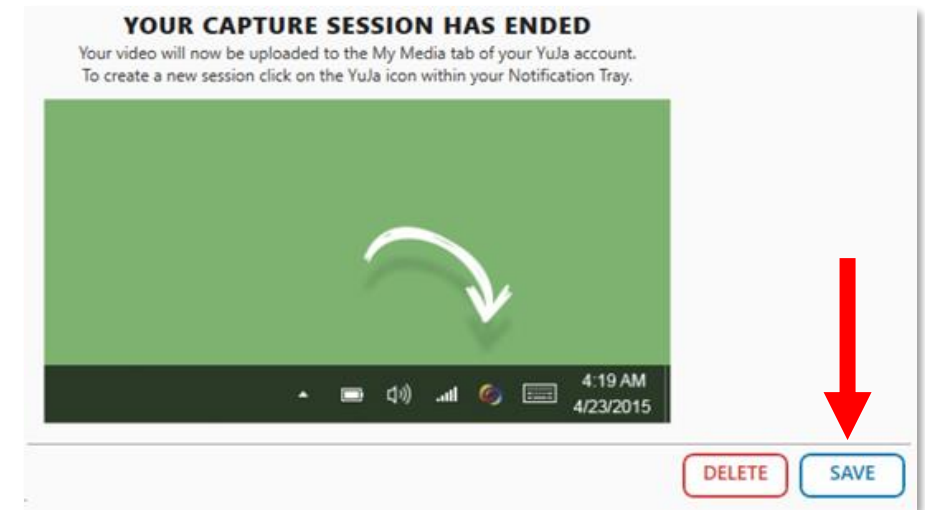

The screenshot shows the YuJa Software Capture interface. On the left is a sidebar with settings for VIDEO (Live Streamer CAM 313), AUDIO (Microphone), SCREEN (Main Screen), LIVE (No), and PROFILE (Current). The main area has a title bar with 'Skills Passport' and a toolbar with share, folder, settings, and help icons. Below the title bar are two video preview windows: one showing a webcam feed of a man and another showing a screen capture of a software interface. A microphone icon and a vertical audio level indicator are positioned between the two preview windows. At the bottom are 'CANCEL' and 'START' buttons. Red boxes with arrows point to various elements: 'Enter an appropriate title' points to the title bar; 'Check audio is detected' points to the audio level indicator; 'Position the webcam' points to the webcam preview; and 'Check content is visible' points to the screen capture preview.

The recording toolbar is shown with several buttons: 'Return to YuJa' (with a swirl icon), 'Pause' (with a double vertical bar icon), 'Stop' (with a square icon), a microphone icon, a 'Mic level' indicator (with a vertical bar chart), and a right-pointing arrow. Red boxes with arrows point to each of these elements.

When you stop the recording press SAVE.

The dialog box has a title 'YOUR CAPTURE SESSION HAS ENDED' and a message: 'Your video will now be uploaded to the My Media tab of your YuJa account. To create a new session click on the YuJa icon within your Notification Tray.' Below the message is a green area with a white curved arrow pointing to the right. At the bottom right are 'DELETE' and 'SAVE' buttons. A red arrow points down to the 'SAVE' button.

# How do I put my recorded video on Moodle?

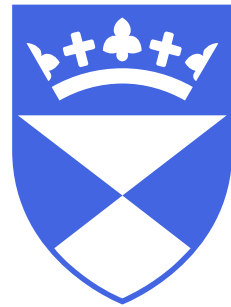

- Find the direct link and the embed code for your video.
- Yuja Guide – [sharing media using direct links or embed codes](#)
- Email [tilt@dundee.ac.uk](mailto:tilt@dundee.ac.uk) and include the URL of the Moodle page the video should be viewed from.
- Video content will become part of your lecture materials/resources in Moodle.
